PROFILE SUMMARY

Frontend Developer with hands-on experience in React.js and Svelte, focused on building responsive and user-friendly interfaces. Experienced in converting designs into production-ready UI and collaborating in team environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend Technologies: React.js, Svelte, Tailwind CSS, Responsive Web Design
Backend Technologies (Basic): Node.js, Express.js, MongoDB, RESTful APIs
Developer Tools: Git, GitHub, WordPress, Webflow, Postman, Netlify, Vercel

PROFESSIONAL EXPERIENCE

Frontend Developer Intern Feb 2026 – Present
Zapify Australia Remote

- Converted reference designs into responsive, production-ready UI components using Svelte and Tailwind CSS
- Developed reusable UI component library with consistent design patterns, ensuring UI consistency across the app
- Built pixel-perfect layouts with proper spacing and responsiveness
- Added client-side form validation and improved UI structure
- Collaborated with distributed team using Git workflows including code reviews and pull request management

Frontend Developer Intern Jul 2025 – Oct 2025
Athlyn Remote

- Built responsive multi-step authentication flows with custom validation, password toggles, and adaptive layouts using React.js and Tailwind CSS
- Developed modular User and Athlete Profile dashboards using component-based architecture, reducing code duplication by 40 percent
- Translated Figma design specifications into functional, maintainable React components ensuring design fidelity
- Resolved critical UI bugs on landing page and ensured pixel-perfect responsiveness across devices
- Collaborated in GitHub repository using branching strategies, pull requests, and conflict resolution workflows

TECHNICAL PROJECTS

Tumor Tracer - AI Brain Tumor Detection Web App | *React, Tailwind CSS, FastAPI* 2025

- GitHub: github.com/ItsEragon/TumorTracer
- Built responsive React frontend with drag-and-drop MRI upload interface and real-time visualization
- Integrated FastAPI backend serving PyTorch model hosted on Hugging Face Spaces
- Added image preprocessing, API communication, and error handling
- Deployed full-stack application on Netlify with optimized build configuration

PassOP - Password Manager | *React, Node.js, Express.js, MongoDB, Tailwind CSS* 2025

- GitHub: github.com/ItsEragon/PassOP
- Built full-stack MERN password management application with CRUD operations
- Created REST API using Express.js backend and MongoDB native driver
- Created responsive UI with Tailwind CSS featuring clipboard functionality
- Built complete user workflow including add, edit, and delete features

ACHIEVEMENTS

Ranked 16th out of 130+ teams at AIGNITE 2025, East India's Largest AI Hackathon

EDUCATION

University of North Bengal Siliguri, West Bengal, India
Bachelor of Science in Computer Science; CGPA: 7.78/10 September 2022 – August 2025
